Biobased
Products

Market
introduction

Inter- and transdisciplinary analysis and assessment of biobased value chains

...from each of the following perspectives:

- Companies that focus on new biobased resources, processes and products;
- Established producers seeking to introduce renewable resources, biotechnological processes and their corresponding products onto the market;
- Actors attempting to gauge the need and acceptance of such products;
- Organizations that support the development of biobased value chains, e.g. through research and advisory services.

Master's program in Bioeconomy - Concept

UNIVERSITY OF
HOHENHEIM

T - Profile

Systematic, integrative and participative approaches

Disciplinary expertise
